

SOUSTRUŽENÍ

Table for turning operations with columns for material type, application, use, feed, cutting speed, tool wear, material properties, substrate, coating, color, cooling, vibration, and wear. Includes rows for materials like T9310, T9315, T9325, etc.

VRTÁNÍ

Table for drilling operations with columns for material type, application, use, feed, cutting speed, tool wear, material properties, substrate, coating, color, cooling, vibration, and wear. Includes rows for materials like D9335, D8330, D8345.

FRÉZOVÁNÍ

Table for milling operations with columns for material type, application, use, feed, cutting speed, tool wear, material properties, substrate, coating, color, cooling, vibration, and wear. Includes rows for materials like M9315, M9325, M9340, etc.

Summary table for material selection with columns for application, use, feed, cutting speed, tool wear, material properties, substrate, coating, color, cooling, vibration, and wear. Includes rows for materials like T9310, T9315, T9325, etc.
